

LECO CORPORATION

3000 Lakeview Avenue • St. Joseph, MI 49085-2396 U.S.A.

Phone: (616)983-5531 • Telex: 211605 • Facsimile: (616)983-3850

SUBJECT: OBSOLETE LECO EQUIPMENT

The obsolete process on the following list of LECO instruments will begin immediately. LECO will continue to service these instruments through December 31, 1999 provided that parts are available. LECO will discontinue all field and in-house repair of these units and their associated sub-components effective January 1, 2000.

This decision is necessitated by the growing number of parts no longer available to LECO by its suppliers and shortage of stock item parts.

METALLOGRAPHIC

VP-50 GRINDER/POLISHER
VP-150 GRINDER/POLISHER

Support of these units after January 1, 2000 will be limited to telephone help only by our LECO St. Joseph, Michigan telephone staff.

All listed instrumentation has been out of production for several years.

LECO Corporation presently manufactures state-of -the-art metallographic instrumentation for replacement of the obsolete systems listed above. Please contact your LECO Sales Engineer for details.

Very truly yours,

LECO Corporation
